It was in connection with this invention that the strife between Hudson Maxim and his brother, Sir Hiram Stevens Maxim, came to light. After the controversy had lasted for several years Hudson Maxim issued a statement that he never had invented a gun. The brothers were unable to reconcile their differences, however. Sir Hiram died in 1916.

In his experiments with dynamite, nitroglycerin, guncotton, and other explosives Hudson had many hairbreadth escapes. His sacrifice to science was his left hand, which was blown off in an experiment with maximite. For thirty years he wore a rubber hand, replacing it with a steel one in 1926.

The next suggestion, which one at derman maid was the most promising presented, was this: Erect school buildings by bond issue; and give one half of the taxes new collected for school buildings to the educational fund and the other half to the city corporate fund.

The school building fund tax rate is \$1 on each \$100 of assessed valuation and the 1925 taxable valuation in Chicago is \$1,832,067,121. Thus the school building fund taxes extended would be \$18,820,671. One half is therefore \$3.410,335. That much gain could be split between the school's educational fund and the city corporate fund. It assessed values of non-half as at present. This, assessed values of non-half as at present. This, assessed values of non-half as at present. When you say... "Give me a quart of oil"

"never mind the cost!"

What does oil cost? "25f or 30f a quart," you say.

You are only partly right. That is what oil costs in a quart measure. But not when it gets in your engine.

At least 50¢ of every dollar spent on engine repairs last year must be added to oil bills. That's why "Give me a quart of oil" is such a costly habit.

Carbon deposit is often increased by poor oil. Valves are pitted, too. Bearings loosen before they should. And wear on piston rings speeds up.

These costs are sure to run higher when you say, "Give me a quart of oil." They are sure to run lower when you say, "Give me Mobiloil."

Mobiloil is not a gasoline by-product.

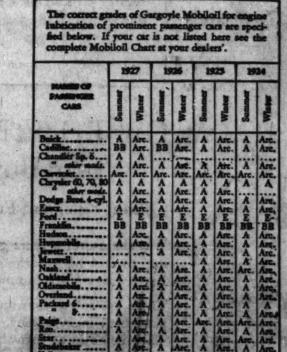

Mobilofl is a specialized LUBRICATING oil. Made by the most successful specialists in lubrication. Made only from lubricating crudes. And the Mobiloil Chart is approved by 182 manufacturers of automobiles and motor trucks.

You can buy Mobiloil at most dealers' who are not controlled by gasoline refiners. The Mobiloil sign is a mark of an independent dealer and filling station.

For the cheapest lubrication per mile and per year Don'tsay, "Give mea quart of oil." Ask your dealer for

Expect Britain to Ease Policy, [Chleage Tribune Press Service.]

LONDON, May 6.—The announcement today that Foreign Secretary Sir Austen Chamberlain will make a complete statement on the British position in China next week, probably Monday, is interpreted in political circles here as confirmation of reports that Great Britain, as well as France, Italy and Japan, has come around to the American policy against further communications to the Hankow government demanding sanctions for the Nanking events.

This view was strengthened by a British announcement today that the Hankow government has turned from red to very pale pink and is in difficult red to very pale pink and is in difficult straits because of lack of funds and stagnant trade. Eugene Chen, Cantonese foreign minister, has told Miles Lampson, the British minister, that he will make common cause with the Nanking moderates, who are led by Gen. Chiang Kai-shek, if the powers refrain from taking sanctions. Observers here now believe Great Britain will await the natural swing of China away from the Reds.

"The More You Tell the Quicker You Sell"

WANT ADS that fail to produce do so not through lack of pulling power on the part of The Tribune (because by far the greater number of Want Ads do produce), but because they are carelessly worded. Want advertisers must stimulate action in order to turn prospects into sales. Adopting The Tribune slogan. "The More You Tell, the Quicker You Sell," will make your Want Ads more productive.

New York, May 6.—[Special.]—The nature of the mysterious contract be-tween Frieda Hempel, opera star, and August Heckscher, 78 year old philanthropist, was partially revealed today by Irving L. Ernst, Mme. Hempel's attorney, at the close of an interview in the concert singer's apartment. "The agreement would involve Mme. FARML AND FRANK GARDEN FIDGWAY

If you have a shaded window in your garage, that needs to be brightened upput in a window box and plant some amuals. Use a few trailing vines Thunbergis is a good annual, furnishing beautiful buff flowers.

It is the time of year when window and perch box planting can be safely done. Petunisa are recommended by garden experts where the boxes are in the sum. They advise using at least some of the balcony strains that have a wide range of color, including the blues and purples that are popular in this region. The petunias send out long stems that droop over the edge of the box. In sunny boxes the tail masturitums are also used. Then there is the dwarf alivia with scarlet blossoms, opening all summer. For a misty white blossom that comes out on vines which droop over the edge of the box uses weet alyssum.

Graceful spikes shoot up to furnish brilliant color where dwarf mandrascons are planted. If you want something to counteract the garage's odor use the fragrant heliotrope, which sends out purple blossoms and perfumes the air.

Amusic for shady boxes include leaved be all different and tuberous begonias. Get the bulks of these two flowers.

A National Victory for Value and Volume

"The Secret of Success is Constancy of Purpose"

ETTERS and telegrams just received from 70 Regal
Managers in U.S. A.—from New York to San Francisco show a 50% increase in sales in all Regal Stores for the month of April.

And April with Easter is the Business Barometer for Spring and Summer in the retail shoe business.

When new records for the month were chalked up on the Sales Bulletin Board showing the largest increase in the history of this business, there was just as much enthusiasm as if we were getting the returns from a National Election.

It was a landslide for Regal in every section of the country, and your "vote" did it. Old customers and a host of new friends were convinced, it was Unwise to pay less, and Unnecessary to pay more.

We felt so happy about it that we thought everybody who helped produce the results would be interested

Now when a National Institution, with an established business for more than one third of a century, breaks all

records with a 50% increase there is only one answer, and that is, PUBLIC RECOGNITION OF UNUSUAL VALUE AND EXCEPTIONAL SERVICE AT A LOWER PRICE.

There is no secret about our success. There is no charge in Management or Policy. The Founder of this Business is now the President of this Company. The man who sold the first pair of shoes in the first Regal Store continues to direct the Policy of a National Institution. The Regal Platform is the same today as when this business was started 34 years ago—One Price, One Quality, One Profit—from Maker to Wearer.

Increased Volume concentrated on One Quality reduces our Factory expense and increases our Factory production. Shipping direct to our own chain of Stores from Coast to Coast, with One Standard Price for all Styles in every Store, cuts the cost of selling.

You gave us the Volume that made the Value possible, and today the Regal Shoe Company is the largest One Price manufacturing retailer of high grade shoes in the world.

A National Institution is now at Your Service
